Lyle	64/3	63/4	63/4	62/6	

INTERPRETING GENETIC DISTANCE WITHIN SURNAME PROJECTS

67 Markers

1-2	Tightly Related	65-66/67 You share the same surname (or a variant) with another male and you mismatch by only one or two 'points' at only one marker. It's most likely that you matched 36/37 or 37/37 on a previous Y-DNA test. Very few people achieve this close level of a match. All confidence levels are well within the time frame that surnames were adopted in Western Europe.
3-4	Related	63-64/67 You share the same surname (or a variant) with another male and you mismatch by only three or four 'points'. It's most likely that you matched 24/25, 36/37 or 37/37 on previous Y-DNA tests and your mismatch will be found within the second panel at DYS #'s 458, 459 a, 459b, 449, or within 464 a-d, or at DYS 576, 570, CDYa or CDYb in our third panel of markers. Your common ancestor is probably not extremely recent, but your mismatch is likely within the range of most well established surname lineages in Western Europe.
5-6	Related	61-62/67 You share the same surname (or a variant) with another male and you mismatch by five or six 'points'. Because of the volatility within some of the markers this is slightly tighter than being 11/12, 23/25, or 33/37, and it's most likely that you matched closely on previous Y-DNA tests. It's most likely that you matched 24/25, 36/37 or 37/37 on previous Y-DNA tests and your mismatch will be found within the second panel at DYS #'s 458, 459 a, 459b, 449, or within 464 a-d, or at DYS 576, 570, CDYa or CDYb in our third panel of markers. Your common ancestor is not very recent, but your mismatch is likely within the range of most well established surname lineages in Western Europe.

Family Tree DNA Time Predictor – FTDNATiP

In comparing 67 markers, the probability that Person A and Person B shared a common ancestor within the last x generations (8 to 12) is y percent.

Markers	Person A	Person B	Matches	Genetic Distance	8 Generations	9 Generations	10 Generations	11 Generations	12 Generations
67	William Leverich	Joseph P. Leverich	66	1	95.27%	97.06%	98.19%	98.89%	99.32%
